

POWER Save the Date

"POWER Interfaith held two political education training and planning sessions this week in preparation for the Spring Philadelphia Mayoral primary. Over 200 people attended between the two nights from 60 different congregations and organizations and learned about the responsibilities of the mayor as well as how Power activists can impact the next mayor's agenda in specific and measurable ways. To that end,

Power will host a Mayoral forum with the candidates on April 16 (location tbd).

Please save the date and plan to attend!"
